

I Gede Ananda Bela Persada

Backend Developer

gdenand.dev | linkedin.com/in/gedeananda | github.com/GedeAnanda

Informatics Engineering student at Telkom University with hands-on experience building iOS apps, backend systems, and AI-powered products. Creator of FirStep, an AI career simulator recognized at Festival AI Nusantara and Microsoft Elevate. Passionate about merging engineering and creativity to build meaningful, human-centered technology.

TECHNICAL SKILLS

Swift & SwiftUI	Go / Gin / GORM	Node.js & Express
Next.js & React	PostgreSQL & Prisma	Python
Claude & Gemini API	Git · Railway · Vercel	IndoBERT · SVM · TF-IDF

KEY PROJECTS

- FirStep — AI Career Simulator**
AI-powered platform for Indonesian university students featuring a 5-year career simulator, CV Roaster, and Reality Check Score. Built with Next.js, Claude API, and Supabase. Accepted into Festival AI Nusantara & Microsoft Elevate Innovation Track.
- LensLift — iOS Gym Companion App**
Full-stack iOS gym tracker with AI food analysis via Claude Vision API. SwiftUI frontend backed by Go/Gin/GORM/PostgreSQL. Features onboarding, workout sessions, nutrition logging, and progress tracking.
- Olahin Backend — REST API**
Production-ready RESTful API built with Go and Gin framework covering authentication, data modeling, and CRUD operations with PostgreSQL.
- GEMASTIK XVIII — Data Mining**
NLP pipeline analyzing 4,000 Google Play reviews of Indonesian government apps. IndoBERT labeling + TF-IDF + SVM classifier achieving ~93% accuracy. Published IEEE-style academic report.
- Smoothies Sultan — Animated Landing Page**
Premium product landing page with Next.js, GSAP, and Framer Motion featuring cinematic scroll animations and micro-interactions.

EXPERIENCE & ACTIVITIES

- Mobile Application Developer (Intern) · Advanced Software Engineering Laboratory** Jul 2026 – Present
Internship (hybrid, Bandung) focused on mobile application development across mobile platforms.
- Talent Community · PRODIGI — Digital Talent Centre Laboratory** June 2026 – Present
Selected member focusing on Data Mining and Software Innovation. Advancing expertise in analytical systems and engineering.
- Backend Web Developer · CCI — Telkom University** Feb 2026 – Present
Member of campus technology organisation focused on backend development, system architecture, and API engineering.
- Study Group of Backend Developer · GDGoC — Telkom University** Nov 2025 – Present
Exploring Google's technology ecosystem through collaborative backend development projects with the campus developer community.

EDUCATION

- Bachelor of Engineering — Informatics Engineering** 2025 – 2029
Telkom University, Bandung
GPA: 3.93

Software Engineering Bootcamp

RevoU

Full-stack software engineering program

June 2026 – Present

Senior High School — Science

SMAN 1 Singaraja, Bali

Activities: Cinematography, Videography, Programming

2022 – 2025

ADDITIONAL INFORMATION

Awards/Achievements:

- Finalist — Festival AI Nusantara & Microsoft Elevate Innovation Track (FirStep, 2025)
- 1st Place Provincial Level Bali — FLS2N Short Film 2024 (Cinematography & Editing)
- National Finalist — FLS2N Short Film 2024

Languages: Indonesian (Native) · English (Professional)

Interests: Filmmaking & Cinematography (ND Project) · Hackathons · Content Creation
